SUMMARY

I am a Full-Stack developer. I recently completed an intense boot camp where I acquired and honed my skills in JavaScript, HTML, CSS, React, and PSQL. I am in search of opportunities that will allow me to continue to further and deepen my understanding of full-stack development, improve my current skills, and acquire new ones.

PROJECTS

Our Future Generation - Raffle Page 🔗

Took a leadership role in a group project to inject a React component into a WordPress website. Created a full CRUD application that creates and runs raffles on a website for a non-profit organization. Set up the API that allowed the front end of our site to communicate with the database, designed and styled the front end pages for the raffles, added administrative functionality to the site, and wrote the function which chooses the winner of the raffle, notifies them and the site admins with an email.

Tech Stack: JavaScript, JSX, API, CSS, PSQL, Material UI

Playlist App 🔗

Created a full CRUD React application that allows users to make a music playlist. Users can create, read, update, and delete the songs on the playlist. This app is fully deployed in an AWS ecosystem utilizing AWS Amplify to host the react app, EC2 to host the server, and RDS to host the database.

Tech Stack: React, JSX, PSQL, API, AWS EC2, AWS Amplify, AWS RDS, Ubuntu

Netflix Replica App 🔗

Created a Netflix search React application that leverages TMDB API to search movies and TV shows. Hosted on AWS Amplify

Tech Stack: React, JSX, API, AWS Amplify

Demon Slayer Game 🔗

Created a fully functioning game in JavaScript using Canvas-API, and HTML.

Tech Stack: JavaScript, HTML, CSS, Canvas

Calculator Project 🔗

Created a fully functioning calculator from scratch

Tech Stack: JavaScript, HTML, CSS

SKILLS

FRONT-END: ReactJS, JavaScript, JSX, HTML, CSS, ES6, Bootstrap, Material UI, Fetch, VIM, SCSS, ES5

BACK-END: Node.js, PSQL, API, PostgresPSQL, AWS: RDS, AWS: EC2, AWS: S3, AWS: Amplify

TOOLS: GitHub, VS Code, DevOps, MS Teams, MS OneNote, Slack, Salesforce, Cisco Jabber, Ubuntu, Git

SOFT SKILLS: Team Work, Leadership, Communication Skills, Can Rapidly Learn New Tech

EMPLOYMENT

Weitz & Luxenberg

Legal Assistant · 2019 to 2020 · New York City
