SUMMARY

I am on a path to become a Full-Stack developer. I recently completed an intense bootcamp where I acquired and honed my skills in JavaScript, HTML, CSS, React, and PSQL. I am in search of more opportunities that will allow me to continue to further and deepen my understanding of full stack development and improve my current skills and acquire new ones.

EMPLOYMENT

Weitz & Luxenberg

[Legal Assistant](#) · 2019 to 2020 · New York City

EDUCATION

Miami University · 2015 to 2019

BA Political Science 2019

SKILLS

FRONT-END: HTML, ReactJS, JSX, JavaScript, EC6, CSS, Bootstrap, Material UI, Fetch, VIM, SCSS

BACK-END: Node.js, PSQL, API, Python, AWS RDS, EC2, S3, PostgreSQL

TOOLS: GitHub, VS Code, DevOps, MS Teams, MS OneNote, Slack, Salesforce, Cisco_Jabber, Ubuntu

SOFT SKILLS: Team Work, Leadership, Communication Skills, Can Rapidly Learn New Tech

PROJECTS

Our Future Generation - Raffle Page

Took a leadership role in a group project to inject a React component into a WordPress website. Created a full CRUD application that creates and runs raffles on a website of a non-profit organization. Set up the API that allowed the front end of our site to communicate with the database, designed and styled the front end pages for the raffles, added administrative functionality to the site, and wrote the function that chooses the winner of the raffle and notifies the winner and site admins with an email.

Tech Stack: JavaScript, JSX, API, CSS, PSQL, Material UI

Playlist App

Created a full CRUD application that allows one to make a playlist while deleting and updating its items, fully deployed on an Amazon EC2 instance.

Tech Stack: React, JSX, PSQL, API, AWS EC2, AWS Amplify, Ubuntu

Netflix Replica App

Created a Netflix like application that pulls from an API to search movies and TV shows

Tech Stack: React, JSX, API

Demon Slayer Game

Created a fully functioning game in JavaScript only using Canvas-API and rendering for visuals

Tech Stack: JAS, HTML, CSS, Canvas

Calculator Project

Created a fully functioning calculator from scratch

Tech Stack: JavaScript, HTML, CSS
